

Task Description

1. Create four new toasts:

- success.html.erb
- error.html.erb
- info.html.erb
- warning.html.erb

2. Yield them in the main application view (app/views/layouts/application.html.erb), in between the navbar and the content.

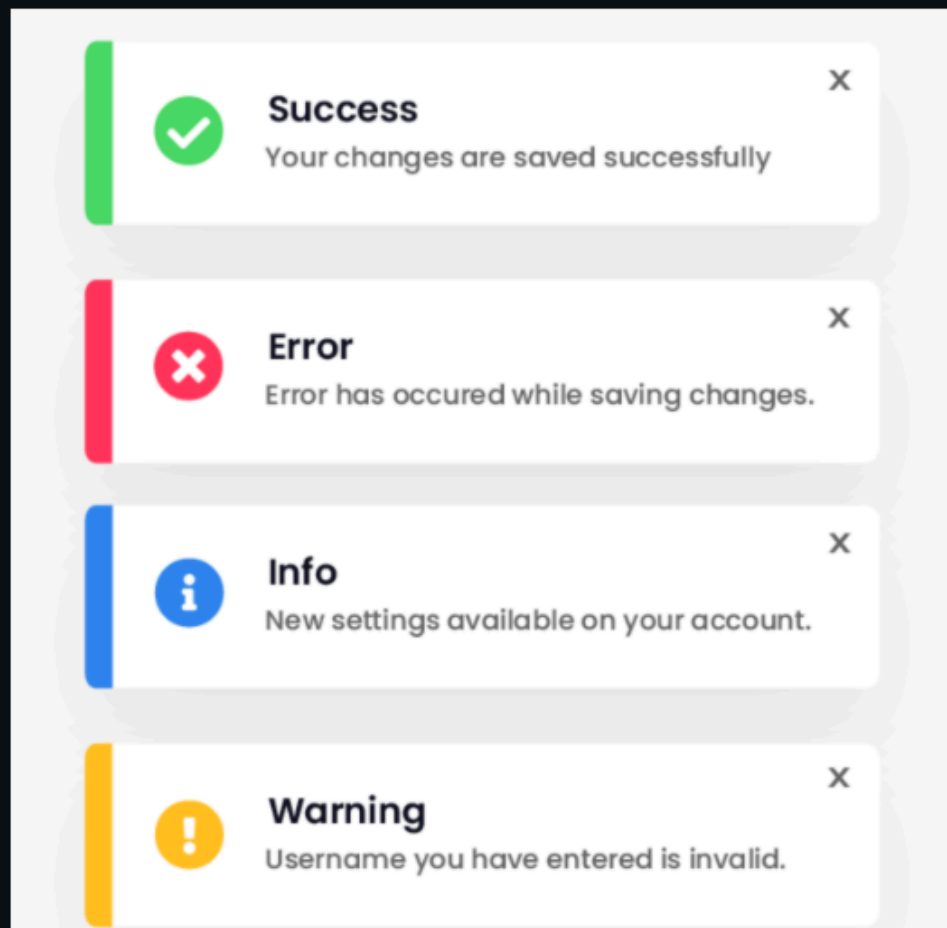

3. Replace all `flash[:notice]` in the source code with `flash[:success]`

4. Replace all `flash[:alert]` in the source code with `flash[:error]`

5. Make sure all toasts have a 'x' button and upon being pressed, it dismisses the toast

6. Make sure that if the close button is not pressed, the toast fades out automatically after 10 seconds

Inspiration

- 1) 2 hours
- 2) Created an excel sheet for all issues with their descriptions, story points, priorities, and assignees. 1 hour
