

Date: November 19th, 2024

Time: 7:00pm

Attendance: Ahmad, Yassine, Daniel, Gabriel, Luqman

Agenda Items (Why are we meeting?)

- Finalize CI setup + Make sure all tests pass
- Setup linter with GitHub actions
- Static analysis tool
- Decide on final adjustments to the UI
- Redivide and finish up new features from Sprint 3

Meeting Notes

Key Points

1. Setup job on CI pipeline to run Rubocop on all Pull Requests towards master.
2. We need to update all broken specs and make the check on GitHub pass.
3. We need evaluations to be created automatically when joining/leaving a team.

Questions

Decisions

- Use Rubocop for static code analysis
- Add toasts to UI + Fix broken navbars
